EDUCATION

Course	Year	College / University	CGPA / %
B.Tech (CSE with AI)	2027	Netaji Subhas University of Technology	7.2
CBSE (Class XII)	2023	Khemo Devi Public School, Narela	88%
CBSE (Class X)	2021	OP Jindal Modern School, Hisar	94.6%

INTERNSHIP

- **Software Development Intern** | Jindal Stainless Ltd., Hisar [Certificate](#) [Live Demo](#) [GitHub](#) May 2026 - July 2026
 - Developed a full-stack enterprise application to streamline business workflows and data management using **Node.js**, **Express.js**, and **MongoDB/Mongoose**.
 - Designed database-backed workflows and **REST APIs** for structured data collection, **validation**, **retrieval**, and **management** across multiple **business modules**.
 - Implemented Excel-based data **import/export**, **filtering**, **PO expiry monitoring**, and **audit tracking** to improve data accessibility, operational monitoring, and reporting.

PROJECTS

- **AI Email Copilot** [Live Demo](#) [GitHub](#)
 - Built a full-stack AI email assistant using **Node.js**, **Express.js**, **MongoDB**, **Gmail API**, and **Gemini API** to automate email analysis and content generation through structured AI workflows.
 - Integrated Gmail data retrieval and processing with **secure API access**, enabling the system to analyze user emails and support automated downstream workflows.
 - Developed **six Gemini-powered workflows** for email summarization, action-item extraction, translation, tone analysis, reply drafting, and content generation using **reusable prompt templates** and **structured input validation**.
- **Hospital Management System** [Live Demo](#) [GitHub](#)
 - Developed a full-stack hospital management system using **HTML**, **CSS**, **JavaScript**, **Node.js**, **Express.js**, and **MongoDB/Mongoose** to manage structured patient, doctor, appointment, and slot data through RESTful APIs.
 - Implemented **role-based workflows** and input validation for patients, doctors, and administrators, ensuring reliable and **secure management** of healthcare records and operational data.
 - Engineered appointment and **doctor-slot management** with **automated slot generation**, **availability tracking**, and validation to streamline scheduling and **prevent duplicate bookings**.

SKILLS

- **Programming & Data Analysis:** Python, SQL, C++, C, JavaScript, Pandas, NumPy
- **Analytics & Machine Learning:** Data Analysis, Exploratory Data Analysis, Statistics, Machine Learning
- **Core CS:** Data Structures & Algorithms, DBMS, OOP
- **Web & Backend:** Node.js, Express.js, REST APIs, MongoDB/Mongoose
- **Tools:** Git, GitHub, Postman

POSITIONS OF RESPONSIBILITY

- **Volunteer** | NSS NSUT Cell Jan 2024 - Dec 2024
 - Contributed to social outreach and community development initiatives through collaborative university activities.

ACHIEVEMENTS

- Solved **500+** DSA problems
- Secured **99.6 percentile** in JEE Main 2023
